PROFESSIONAL EXPERIENCE

Sales & Marketing Intern | iCell, Paris

2025 - 2026 (part-time, alongside MSc)

- Designed and tested 15+ content campaigns across 3 seasonal pushes; weekly competitor tracking across 8 brands directly shaped pricing and promotional decisions
- Mapped acquisition funnel from social ad to in-store conversion, identified a consideration-phase drop-off, and drafted a retargeting brief that closed the gap
- Produced organic content across Instagram and TikTok, adapting format and tone (story, post, reel) based on platform-specific engagement data

Customer Success Manager | Octopus Era, Paris

2023 - 2024

- Managed a EUR 16K+ client portfolio across digital marketing mandates; maintained 90%+ on-time delivery through structured account plans and proactive escalation management
- Drove 20%+ account expansion by converting OKR-aligned QBR insights and client usage data into targeted upsell proposals
- Built onboarding playbooks and escalation workflows that cut first-response time and improved CSAT across all active accounts

Product Support Engineer | Vxceed Software Solutions, Bengaluru

2021 - 2022

- Resolved 50+ critical client escalations, protecting EUR 220K+ in enterprise revenue; built a 50-entry knowledge base that cut repeat issues by ~33%
- Translated 12 recurring client complaints into 3 shipped product fixes by structuring voice-of-customer feedback for the engineering team
- Led UAT sessions and coordinated zero-regression releases, bridging client needs with engineering execution

PROJECTS

Cleo: AI guide for international students in France

User Research | GTM | 0-to-1 Launch | Private Beta Live: cleo-app-theta.vercel.app

- Identified an underserved segment of 400K+ international students/yr with no structured guide for CAF, CPAM, OFII and banking
- Validated via 8 interviews + 40-person survey: 82% missed at least one administrative deadline in their first 3 months
- Defined ICP, positioned for organic word-of-mouth within student communities, launched to private beta. Core value prop: a 7-day action plan replacing a 3-month fragmented process

PlayPal: sports matchmaking app for local game discovery

Market Research | Segmentation | Community GTM | Private Beta Live: sport-link-app.lovable.app

- 12 user interviews + 47-person survey surfaced the real gap: not a scheduler but a "who's playing near me now" discovery layer. ICP: young expats and active professionals in Paris
- Launched via community seeding across sports clubs, badminton groups and expat networks; iterating on activation rate and D7 retention as primary growth levers

STRATEGY CASE STUDIES (full versions in portfolio)

PhotoRoom	(GTM & pricing): Diagnosed revenue model misalignment between flat subscriptions and rising AI costs; designed a 3-tier monetisation approach to protect margin without losing core users
Joko	(retention & engagement): Redesigned the milestone progress loop to break a 30-day churn pattern and shift 4M+ users from weekly to daily engagement through personalised reward cadence
Netflix	(Gen Z growth): 5-lever behavioural growth framework including a short-form clips feed to convert passive scroll into full-title viewing and re-engage Gen Z (270M+ subscribers)

SKILLS & TOOLS

Marketing & GTM:	Campaign design & testing, GTM strategy, content strategy, market segmentation, competitor intelligence, brand positioning, community-led growth, A/B testing, AARRR
Client & Account:	Portfolio management, account expansion, QBR facilitation, client onboarding, upsell strategy, stakeholder communication, CRM (HubSpot)
Analytics:	Google Analytics, Mixpanel, Hotjar, cohort analysis, KPI & North Star definition, funnel analysis, retention metrics, Excel / Google Sheets (advanced)
Tools:	Notion, Figma, Canva, SQL, Instagram, TikTok, Jira, Miro, Amplitude, Agile/Scrum

EDUCATION & CERTIFICATIONS

MSc International Business | EMLV Grande Ecole (triple-accredited), Paris

2023 - 2025

B.E. Construction Engineering | Jerusalem College of Engineering, Chennai

2017 - 2021
